

## Education

### MA (PhD Incomplete) in Computer Science

Princeton University

Princeton, New Jersey, USA

Apr. 2016

- Received research assistance for work on Network Performance Analysis and Home Network Security.
- Awarded STEM Chateaubriand Fellowship by the Embassy of France for work on Internet of Things (2015 - 2016).
- Advisor: Prof. Nick Feamster
- GPA: 3.8/4.0

### BTech and MTech in Electronics and Communication Engineering

Indian Institute of Technology, Roorkee

Roorkee, INDIA

Dec. 2010

- Specialization in Wireless Communication.
- Thesis: Performance Evaluation of Cross-Layer Wireless Body Area Networks.
- GPA: 8.06/10.00

## Skills

<b>Programming</b>	Python v2.7, v3.3 – v3.7, iPython v7.8, Scala v2.11, Java v12.0, PostgreSQL, C/C++, R, Matlab, Node.js
<b>Analytics</b>	Pandas v0.13 – v0.23, Scikit-Learn v0.21, Tensorflow v1.15, Pyspark (Apache Spark), Numpy, Scipy, Matplotlib
<b>Networking</b>	Wireshark/Tshark v2.0, Iperf v2.0 – v3.7, Nmap v7.8, Scapy v2.4, Urllib3, Requests, Beautiful Soup 4, Networkx

## Georgia Institute of Technology

### Graduate Research Assistant

Atlanta, GA, USA

Aug. 2012 - Dec. 2014

- **Analysis of home network availability, infrastructure, and traffic using BISmark:** Analyzed active and passive network data from multiple homes to study network availability in various countries, popular devices in homes, and traffic usage with time; [Link]
- Found most home traffic is exchanged from a few devices to a small number of popular domains;
- **QoS control using SDN for home networks:** Identified application and programmed appropriate rate shaper based on a set of filtering rules to map traffic to outgoing network flow; [Link]
- **SAZO: Constant guard for home network security:** Used bloom-filters and DPI on home routers to create a blacklist based malware identification and notification system for Comcast; [Link]
- **Analysis of end-to-end routing behavior:** Analyzed traceroute data from access networks to a variety of Internet destinations and examined route persistence and prevalence. Presented talk at AIMS, CAIDA.

## INRIA

### Research Intern

Paris, FRANCE

May. 2014 - Sep. 2014

- Mentor: Prof. Renata Teixeira
- Home network diagnosis for performance bottleneck detection: Tested uplink and downlink broadband performance from devices to detect if bottleneck is in the local wireless network or at the edge router.

## LIP6, UPMC

### Research Intern

Paris, FRANCE

Jun. 2013 - Sep. 2013

- Mentor: Prof. Renata Teixeira
- Home network troubleshooting platform using Fathom and BISmark: Programmed active traceroute test on bismark router and analyzed latency and throughput performance from routers.

## North Carolina State University

### Research Scholar

Raleigh, NC, USA

Dec. 2011 - Apr. 2012

- Mentor: Prof. Injong Rhee
- Indoor Localization for Samsung Smartphones using Radio: Implemented FM/AM transceiver systems on GNURadio to utilize RDS information for indoor localization;

## Indian Institute of Science

### Junior Research Fellow

Bangalore, INDIA

Apr. 2011 - Dec. 2011

- Mentor: Prof. Anurag Kumar
- *WSNs for Societal Needs and Disaster Management:* Prepared work-plan proposal for submission to the Department of Science and Technology (DST), Govt of India; Computed closed-formed expressions for network reliability, and evaluated information theoretic bounds for random hybrid networks.
- *SmartConnect: DIT-ASTEC WSN Project:* Deployment of industrial wireless sensor networks, project demonstrations and experimental data analysis; Studied tessellation algorithm for WSN drop and placement to ensure end-to-end connectivity in the wild;

## Selected Publications
